English: This is a long English text that should be wrapped automatically using character-based wrapping when it exceeds the specified frame width.

Japanese: これは非常に長い日本語のテキストで、指定されたフレーム幅を超えた場合に文字単位で自動的に折り返される例です。ひらがな、カタカナ、漢字すべてに対応しています。

Mixed: This text contains both English and Japanese characters and should wrap correctly with character-based wrapping.

No wrap example: This text will overflow the frame

Height test: This is a very long text that will test the height overflow behavior. It should either be clipped or show overflow spanning frame overflow setting. Let's see ho...
